

Annapoorna Shanmugam

Senior Software Engineer | Backend Engineering | Payments

Chennai, India | Open to Remote | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior software engineer with 12+ years of experience building and modernizing backend systems, with deep expertise in payments, Java, and microservices. I thrive on complex engineering problems—from modernizing legacy platforms and simplifying architectures to improving reliability and driving solutions across teams. Brings strong domain knowledge, hands-on technical depth, and a track record of taking ownership of critical problems from design through delivery.

CORE EXPERTISE

Backend Engineering: Java | Spring Boot | Microservices | REST APIs

Payments: Payment Processing | Post-Payment Systems | Transaction Processing

Architecture & Modernization: Legacy Modernization | API Migration | API Consolidation

Messaging: Kafka | AMQ

Engineering Quality: Automated Testing | Functional Testing | Reliability & Debugging

PROFESSIONAL EXPERIENCE

PayPal — Chennai, India

Senior Software Engineer | Apr 2023 – Present

- Lead backend engineering for post-payment systems, owning complex payment problems, driving cross-team solutions, and contributing to modernization, reliability, and production improvements across critical services.

Software Engineer 3 | Apr 2021 – Mar 2023

- Led modernization of critical payment services, including migration of the C++ Correction API to Java microservices, resolution of complex payment failure scenarios and edge cases, and technical collaboration across dependent teams to improve reliability and prevent financial-impacting issues.

Software Engineer 2 | Aug 2017 – Apr 2021

- Modernized legacy payment applications by developing Java/Spring Boot REST APIs, migrating functionality from monolithic C++ systems to multi-tier services, and improving API performance, observability, and engineering workflows.

Zoho Corporation — Chennai, India

Member Technical Staff | Apr 2014 – Jul 2017

- Developed web and mobile applications for managing Active Directory services, including designing and implementing a Notification Module using Java Reflection and design patterns; also contributed to product knowledge workshops and developer hiring.

Software Engineer Intern | Dec 2013 – Mar 2014

- Developed a standalone Android application for accessing and managing Active Directory services.

EDUCATION

BITS Pilani — Work Integrated Learning Programmes

M.Tech, Artificial Intelligence & Machine Learning | 2024 – 2026

Kumaraguru College of Technology

B.Tech, Information Technology | 2010 – 2014
